POOJA CHANDNA

New Delhi | (+91) 8826662788 | poojachandna04@gmail.com | Portfolio | Linkedin | Github |

Economics graduate with a strong foundation in quantitative research, data analysis and business problem-solving. Proficient in Excel, SQL, Power BI and Python, with experience in KPI analysis, data validation and translating complex datasets into actionable business insights.

EDUCATIONAL QUALIFICATIONS

BA Economics - CGPA 7.94
Maitreyi College, University of Delhi | 2026
Relevant Coursework: IT Skills and Data Analysis I & II, Data Visualization, Analytics/Computing with Python, Statistics with R, Basic & Advanced Econometrics, Basic & Advanced Statistics

AISSCE (CBSE Class XII – Science)
Amity International School, Saket | 2022

RELEVANT EXPERIENCE

Section Leader, Stanford Probability for AI (October 2026 - Present)
- Teaching core math and probability concepts behind modern machine learning and AI to a 10 student international class.

Section Leader, Stanford Code in Place 2026 (May 2026 - June 2026)
- Taught programming with Python to a cohort of 15 students from various countries and backgrounds and assisted with debugging, programming concepts and weekly assignments.

Co-founder & Marketing Director, 180 Degrees Consulting, Maitreyi (Nov 2024 – Jun 2025)
- Co-founded the Maitreyi chapter, leading a 20-member marketing team and coordinating projects, deliverables and cross-functional activities.
- Served as Project Lead for ChildHeartFoundation, conducting volunteer retention research, evaluating outreach strategies and comparing CRM platforms to support operational decision-making.

HR & Data Analytics Intern, MedTourEasy (April 2024)
- Analysed hospital patient records using R, performing data preparation, feature engineering and exploratory data analysis to identify patterns and generate actionable insights.
- Maintained employee databases and supported recruitment and onboarding activities, ensuring accurate record management.

PROJECTS

Housing Price Analysis (Python & Streamlit) GitHub Demo
Performed multiple linear regression to study determinants of housing prices; incorporated dummy variables for amenities (hot water heating, air conditioning); interpreted coefficients, statistical significance, and model fit in a real-world context. Created a Streamlit dashboard to allow user interaction with the regression model.

E-Commerce Customer & Revenue Analysis (PostgreSQL) GitHub
Analysed approximately 100,000 e-commerce orders using SQL to evaluate customer retention, revenue and operational performance. Developed KPIs, identifying R$13.49M in revenue, a 3.04% repeat-customer rate and 91.89% on-time delivery performance.

Student Placement Prediction (PSPP) GitHub
Analysed 10,000 student records using binary logistic regression to identify significant factors associated with placement outcomes, achieving 90.2% classification accuracy.

HR Analytics Dashboard (Power BI & Tableau) Tableau Public
Developed interactive dashboards in Power BI and Tableau to analyse ~1,400 employee records across attrition, demographics and job satisfaction. Built calculated KPIs, filters and interactive navigation to evaluate workforce trends, identifying a 16.1% overall attrition rate.

CERTIFICATIONS

IBM Python for Data Science, AI & Development – *IBM via Coursera* (Aug 2024)

Accenture Data Analytics Job Sim. – *Accenture Virtual Job Simulation via Forage* (Jun 2024)

Google Data Analytics Certificate – *Google via Coursera* | (Mar 2024)

SKILLS

Data Analysis & Reporting
Advanced Microsoft Excel (PivotTables, VLOOKUP/XLOOKUP, SUMIFS, COUNTIFS, charts), KPI Reporting, Data Cleaning, Data Validation

Business Intelligence
Power BI, Tableau, Dashboard Development, Microsoft PowerPoint, Data Visualisation

Programming & Databases
SQL, PostgreSQL, Python, R, DBeaver
