

POOJA CHANDNA

New Delhi | (+91) 8826662788 | poojachandna04@gmail.com

Economics graduate and aspiring Data Analyst with hands-on experience in Python, SQL, Power BI and Statistical Modeling. Passionate about transforming data into actionable insights through analytics and visualization.

EDUCATIONAL QUALIFICATIONS

BA Economics - CGPA 7.94

Maitreyi College, University of Delhi | 2026

AISSCE (CBSE Class XII – Science)

Amity International School, Saket | 2022

EXPERIENCE

Section Leader, Stanford Code in Place 2026 (May 2026 - June 2026)

- Taught programming with Python to a cohort of 15 students from various countries and backgrounds.
- Helped students with debugging, programming concepts and weekly assignments.

HR & Data Analytics Intern, MedTourEasy (Apr 2024)

- Built an R (data.table, ggplot2) project on hospital patient records to flag suspected infection, using features such as antibiotic-gap and time-since-culture to find 59.2% of patients were infected
- Aided in recruitment drives, updating employee databases and organizing onboarding.

LEADERSHIP & POSITIONS OF RESPONSIBILITY

Cofounder & Marketing Director, 180Degrees Consulting Maitreyi (Nov 2024 – Jun 2025)

- Co-founded the Maitreyi branch of 180Degrees Consulting.
- Served as the Marketing Director, leading a team of 20 members managing the society's social media pages, creating content and promotional materials.
- Served as Project Lead for Project ChildHeartFoundation. Helped the organisation with Volunteer Research and Retention, Multi-channel Social Media Outreach and CRM Platform Comparison.

Member: Vocational Services, Rotaract Club, DU South Campus (Oct 2023 – Sep 2024)

- Participated in volunteering and fundraising activities for underprivileged children, disabled women and stray animals.

CERTIFICATIONS

Student, Stanford Code in Place 2025 – *Stanford University* (May 2025)

IBM Python for Data Science, AI & Development – *IBM via Coursera* (Aug 2024)

Google Data Analytics Certificate – *Google via Coursera* | (Mar 2024)

PROJECTS

[Housing Price Analysis \(Excel, Python & Streamlit\)](#)

Performed multiple linear regression to study determinants of housing prices; incorporated dummy variables for amenities (hot water heating, air conditioning); interpreted coefficients, statistical significance, and model fit in a real-world context. Created a Streamlit dashboard to allow user interaction with the regression model.

[Nykaa Marketing Channel Analysis Dashboard \(Tableau Public\)](#)

Developed an interactive Tableau dashboard to evaluate ROAS and CAC across 18.6K single-channel campaigns using calculated KPIs, channel comparisons, filters and an efficiency matrix. Identified WhatsApp as the strongest channel with 3.01x ROAS and ₹165.42 CAC, supporting data-driven channel allocation decisions.

[HR Analytics Dashboard \(Power BI/Tableau Public\)](#)

Designed an interactive Power BI dashboard analyzing ~1,400 employee records across demographics, attrition, and satisfaction; redesigned and rebuilt the analysis in Tableau with interactive navigation and calculated KPIs, identifying a 16.1% overall attrition rate.

Student Placement Prediction (Logistic Regression, PSPP)

Built a binary logistic regression model on a 10,000-record dataset to predict student placement outcomes from academic, skill-based, and extracurricular factors. Achieved 90.2% classification accuracy (Nagelkerke $R^2 = 0.62$), identifying CGPA, communication skills, projects completed, and IQ as the strongest significant predictors of placement.

SKILLS

Data & Analytics

Python | SQL | R | SPSS | Streamlit | Advanced Excel & MS Office Suite

Design & Visualisation

Tableau | Power BI | Canva | Notion

Professional

Consulting | Social Media Marketing | English Language | Community Outreach
